Gowanda Electronics Honored by Collins Aerospace as Supplier of the Year for Electronic Components and Distribution

Gowanda, N.Y. (USA) - [Gowanda Electronics](http://www.gowanda.com), a designer and manufacturer of high performance inductors and magnetic components for RF and power applications was awarded “Supplier of the Year for Electronic Components and Distribution” at the Collins Aerospace 2021 Avionics Supply Chain Recognition Event last month.

Collins Aerospace, a leader in technologically advanced and intelligent solutions for the global aerospace and defense industry, recognized Gowanda Electronics for its broadened capabilities, strong engineering support and account management accommodations, when selecting the company for this prestigious award. Gowanda was one of only eight companies selected by Collins Aerospace for supply chain recognition this year from the hundreds of suppliers providing products and services to the company.

Gowanda Electronics VP of Sales Denis Kohlhagen said, “This award from Collins Aerospace – a \$19 billion dollar business unit of Raytheon Technologies – highlights and rewards Gowanda for our outstanding abilities, technologies and customer service in the development and supply of inductor components to major players in aerospace and defense markets. We are grateful to be recognized for our achievements and we look forward to deepening our relationship with Collins Aerospace in the years ahead.”

For more information about Gowanda Electronics, its standard products or custom design options, please contact the company at +1-716-532-2234 (US) or via email at sales@gowanda.com.

***Collins Aerospace**, a unit of Raytheon Technologies Corp. (NYSE: RTX), is a leader in technologically advanced and intelligent solutions for the global aerospace and defense industry. Collins Aerospace has the extensive capabilities, comprehensive portfolio and broad expertise to solve customers' toughest challenges and to meet the demands of a rapidly evolving global market. For more information, visit www.CollinsAerospace.com.*

***Gowanda Electronics** is a privately held company that designs, manufactures and supplies precision electronic components for RF, microwave and power applications. Components include standard off-the-shelf and custom-designed inductors, chokes, coils, conicals, toroids, transformers and magnetic devices in surface mount and thru-hole configurations that are used in a wide variety of electronic applications. Gowanda's products are used primarily by OEM companies and other entities interested in high performance electronic component solutions for the equipment and devices they manufacture. Applications include use in industrial automation & control equipment, communication, instrumentation, medical & diagnostic equipment/devices and test & measurement equipment. Such products are used in a broad range of industries including aviation/aerospace, data processing, defense, education, health care, process & assembly industries, security, space and telecommunications. Gowanda's customers include Fortune 500 companies and other significant players in these global markets. The company is certified to AS9100, ISO 9001 and ISO 13485 quality management standards, offers RoHS compliant products as well as lead-containing components for QPL military/defense and other demanding requirements, and provides non-magnetic inductors for magnetic-sensitive applications.
